# DISCLAIMER

The material in this presentation has been prepared by Lindian Resources Limited ("Company").

This presentation may not be reproduced, redistributed or passed on, directly or indirectly, to any other person, or published, in whole or in part, for any purpose without prior written approval of the Company. This presentation and the material contained in it is for information purposes only. This presentation is not an offer or invitation for subscription or purchase of, or a recommendation in relation to, securities in the Company and neither this presentation nor anything contained in it shall form the basis of any contract or commitment.

This presentation may not be distributed in any jurisdiction except in accordance with the legal requirements applicable in such jurisdiction. Recipients should inform themselves of the restrictions that apply in their jurisdiction. Failure to do so may result in a violation of rules in such a jurisdiction.

This presentation is not financial product or investment advice. It does not consider the investment objectives, financial situation and particular needs of any investor. Before making an investment in the Company, an investor or prospective investor should consider whether such an investment is appropriate to their particular investment needs, objectives and financial circumstances, seek legal and taxation advice as appropriate and consult a financial adviser if necessary.

This presentation may contain forward-looking statements. Forward-looking statements include those containing such words as "anticipate", "estimates", "forecasts", "should", "could", "may", "ideal", "intends", "will", "expects", "plans" or similar expressions. Such forward-looking statements are not guarantees of future performance and involve known and unknown risks, uncertainties, assumptions and other important factors, many of which are beyond the control of the Company, its directors and management that could cause the Company's actual results to differ materially from the results expressed or anticipated in these statements. The Company cannot and does not give any assurance that the results, performance or achievements expressed or implied by the forward looking statements contained in this announcement will actually occur and investors are cautioned not to place undue reliance on these forward looking statements. The Company does not undertake to update or revise forward looking statements, or to publish prospective financial information in the future regardless of whether new information, future events or any other factors affect the information contained in this presentation, except where required by applicable law or the ASX Listing Rules. It is believed that the expectations reflected in these statements are reasonable, but they may be affected by a range of variables and changes in underlying assumptions which could cause actual results or trends to differ materially. The Company does not make any representation or warranty as to the accuracy of such statements or assumptions.

This presentation has been prepared by the Company based on information currently available to it. No representation or warranty, express or implied, is made as to the fairness, accuracy, completeness or correctness of the information, opinions and conclusions contained in this presentation. ## Competent Persons Statement

The information in this presentation that relates to Exploration Results, Metallurgy Results, and Mineral Resources of the Kangankunde Rare Earths Project is extracted from reports released to the Australian Securities Exchange (ASX) listed in the table at Appendix B and which are available to view at [www.lindianresources.com.au](http://www.lindianresources.com.au) and for which Competent Persons' consents were obtained. The Competent Persons' consents remain in place for subsequent releases by the Company of the same information in the same form and context, until the consent is withdrawn or replaced by a subsequent report and accompanying consent.

Unless otherwise stated, where reference is made to previous releases of Exploration Results, Metallurgy Results and Mineral Resources in this presentation, the Company confirms that it is not aware of any new information or data that materially affects the information included in those announcements and all material assumptions and technical parameters underpinning the Exploration Results, Metallurgy Results, and Mineral Resources included in those announcements continue to apply and have not materially changed.

### Lelouma Project

900MT ~45%  $Al_2O_3$  & 2.1%  $SiO_2$

### Woula Project

19MT ~41.7%  $Al_2O_3$  & 3.2%  $SiO_2$

Simple screening and bulk handling processes

Located close to established logistical infrastructure

MOU entered into for supply of bauxite from Gaoual with CBG, Rio Tinto and Halco Mining (RIO Tinto / Allcan / Alcoa / Dadco)<sup>2</sup>

Supply Agreement entered into with C&D Logistics for 23M metric tonnes from Gaoual

## Guinea Bauxite Supply

- Lindian's bauxite projects have a combined **1BT** JORC resource
- Guinea export capacity has increased by 500% from approx. 20Mt per year in 2015 to over 100Mt per year in 2021
- Guinea bauxite production is increasing year-on-year currently at ~47Mt
- Guinea has 16 operating bauxite mines through four major bauxite export corridors

Very high-grade, low silica (screening studies), close to infrastructure located approximately 60km to CBG railhead.

# WHY LINDIAN?

**Two world class projects** in commodities that are in high demand and integral to electric vehicles and global decarbonization strategy.

**Kangankunde a global leading rare earth project** located in the safe, mining friendly jurisdiction of Malawi

**Kangankunde a Tier 1 Asset** with ability to produce high grade NdPr concentrate via a low capital rudimentary process.

**Kangankunde's concentrate a general cargo goods** i.e. not Class 7 allowing Lindian to ship its concentrates to any refinery in the world.

Both Rare Earth and Bauxite projects with generations of supply capability
